

Your Local Guide to Geocaching around the Severn Estuary!

We have set up geocaches around the local area for you to find! The best way to look for them is to download the Geocaching App. Although, all the co-ordinates are on this sheet if you want to use a map and compass!

What is geocaching?

Geocaching is a kind of treasure hunt, where you use co-ordinates and hints to find the 'caches' which are small containers. They normally contain a log book and some kind of tradeable (these can be stickers, badges, pens, etc)!
