

THE NEWPORT COAST PATH FITNESS SCAVENGER HUNT

FANCY A CHALLENGE?

COMPLETE THE ACTIVITIES AT EACH CHECKPOINT FOR A NATURE FUELED WORKOUT

- 1 Start at **Pill Mill** and head down **Courtybella Terrace** for your warm-up. Turn right at the bottom and keep going until you get to the end of **Alexandra Road** - this is a long first stretch so pace yourself by alternating between running and walking.
- 2 Now you're all warmed up, cross the road to the **Newport Transporter Bridge**. Do 10 star jumps on the grass before continuing down the road - if the bridge is open you could take a slight detour and walk up the steps to the top!
- 3 Keep following the main road (**be careful of the traffic**) - either running or walking at your own pace. When you reach the roundabout, follow the road to the right and keep going until you reach the **Coast Path** on your right!
- 4 Turn onto the **Coast Path** and sprint over to the **Three Ships** sculpture and back...Then turn right and follow the **Coast Path** over the small bridge.
- 5 Soon you will run underneath the **main road bridge** to a set of seats on the path. Do 10 tricep dips on the seats here and then run on.
- 6 Keep going along the **Coast Path** until you reach the third set of seats that dip out into the river - turn left off of the **Coast Path** and you will meet **East Dock Road**. Cross the road into the **Old Town Dock** park. This area marks the location of the first dock in Newport! Sprint around the footpath and do 10 sit ups and 10 press ups on the grass!
- 7 Run through the park where you will meet **Frederick Street** - follow this back into town until you reach the **Tree of Life on Commercial Road**. This is a long stretch so pace yourself and alternate running and walking if you want to.
- 8 It's the final stretch! Get your heart pumping for a final time and turn left to jog down **Commerical Road** until you reach the **Phyllis Maud**, an old toilet block that has been renovated into a theatre! Walk down **Courtybella Terrace** to warm down and you are all finished! Well done! Just remember to stretch your muscles!
